A fourth option concerning control of pollutants is also planned.

In 1970-71, only the first year of the program will be given. It will be common to all options and consist of full courses in biology, chemistry, economics, and English, and half-courses in mathematics and statistics.

### *Admission*

Admission to the program will be the same as for the B.Sc. program in Agriculture; that is, a standing of 50 per cent or higher in the following Alberta Grade 12 subjects:

- (1) English 30
- (2) Mathematics 30
- (3) and (4) Two of: Biology 30; Chemistry 30; Mathematics 31; Physics 30 (Biology and Chemistry are recommended).

An overall average of at least 60.0 per cent is required in the Departmental Examination subjects presented for admission.

### *Deadline for applications*

Applications should be submitted to the Office of the Registrar by August 21, 1970. If, by that date, the number of applicants should prove to be insufficient to make it economically feasible to commence the program in the fall of 1970, its introduction may be delayed for one year.

### *Information*

For more detailed information regarding the program or concerning matriculation standing different from that described above, write to the Office of the Dean of Agriculture, The University of Alberta, Edmonton, Alberta.
